MINISTRY OF EDUCATION

Teacher Training / Professional Development Toolkit

The development of this free website is based on a Non-Reimbursable Technical Cooperation Agreement between Corporacion Andina de Fomento (CAF), United Nations International Children's Emergency Fund (UNICEF) and the Ministry of Education (MOE) of Trinidad and Tobago (TT).

Initially, in an effort to provide equitable access to quality online education, this programme sought to equip educators with the necessary skillset and digital resources to enhance their ICT competency and their best-practice approaches for web-based pedagogy of instruction.

Furthering the initial intention, and in line with the M.O.E.'s digitalization drive, this website will serve as a professional development hub for all public educators within Trinidad and Tobago. Here you will find a repository of digital resources to enhance your teaching skills. As well as, equip you with the needed tools and knowledge of a 21st-century educator.

Project Objectives

The objective/s of the project is to:

- Enhance the capacity of teachers to deliver effective and engaging instruction via online platform.
- Educate teachers in the best practices of web-based pedagogy of instruction.
- Develop teachers' skills in navigating, operating and managing ICT platforms.
- Provide resources for teachers to assist in the development of online instruction.
- Enhance the capacity of teachers to deliver effective and engaging instruction via online platform.
- Develop workshops to train Education officers in ICT relevant to LMS and best-practice pedagogy for instruction via the internet.
- Deliver effective content to impart Education Officers with the relevant knowledge and skills needed to facilitate training.
