

A photograph of a garden bed with several young corn plants growing in rows. The plants are green and have long, pointed leaves. The garden bed is bordered by a chain-link fence in the background and some concrete blocks on the right side. The ground is covered with dry grass and mulch. The left side of the image is darkened with a gradient, and there is an orange horizontal bar in the top left corner.

Orange Valley Government Primary School

STEPS PORTFOLIO

Core Area – Agricultural Science

Land Preparation

Troughs created for planting
of seedlings.

Preparing the Land for planting

Fork being used to break up the soil.

Land preparation

Measurements being done for plant spacing.

Students
using the
tools for
preparing
the soil

Students seen
irrigating the
plants after
planting.

Growth of seedlings (Patchoi, Ochro, Corn and Tomato)

A photograph of a garden bed containing several tomato plants. The plants are green and leafy, with some showing small yellow flowers. They are supported by wooden stakes and blue ties. In the background, there is a raised garden bed with various other plants, including one with large purple flowers. The text "Tomato Plants" is overlaid in the center of the image.

Tomato Plants

Ochro
